

# Reception News

Summer 2 Week 1 –10th June 2022

## What have we been learning?

Even though we have only been in school for four days, it has been a very busy week in Reception Class!

- ◆ We have absolutely LOVED being in our new “**Dinosaur Dig**” role play area in the classroom...we’re enjoying being **palaeontologists** and digging for fossils!
- ◆ In our Literacy sessions, we have been thinking about what we did over the half-term holidays and trying our very best to write about it independently using capital letters, finger spaces and full stops correctly.
- ◆ In Maths this week we have been practising our recognition of numbers from 0 to 20 and also ordering those numbers.
- ◆ In our Understanding the World sessions this week, we have started to learn about dinosaurs. Mrs Short and Mrs Silvester were so impressed because we knew lots of facts and dinosaur names already!

Dinosaurs, dinosaurs everywhere!

We loved our Zoom session with the Great North Museum on Tuesday.

## Homework

### Literacy

- Sounds - Please keep revising all of the sounds using the little brown sound books.
- Reading books and sight words (“tricky words”)
- Writing about our Zoom session independently and drawing a picture to show what happened or writing about their favourite part of it.

### Maths

- To reinforce the work on number order that we have been doing this week, please ask your child to fill in the missing numbers on the dinosaur eggs. *Please encourage your child to form their numbers correctly.*

On **DB Primary** we are continuing to add links to useful websites, for example there is a new tab with links to websites that your child might like to look at relating to our new “**Land Before Time**” topic.

There is also a new tab with some of the songs and dances which we have been learning about dinosaurs too.
